

6th Organic Chemistry Symposium

for interested students

Wednesday, 14 May 2025

Carl Auer von Welsbach Lecture Hall

Programme

15:30 **Opening and welcome** (*Prof. Davide Bonifazi, PhD*)

Guest lecture by Ass.-Prof. Dr. Bart Pieber (ISTA)

Taming Light-Mediated Nickel Catalysis through Ligand Design

16:30 **Walther Schmid Memorial Award**

for excellent performance in organic chemistry during Bachelor studies

Presentation of the winner

17:00 **Poster session**

17:30 Mag. Dr. Roman Lichtenecker

Unlocking Drug Targets: Protein Isotope Labeling and NMR Spectroscopy for Molecular Insights

17:50 Dr. Katharina Pallitsch, Bakk. MSc

Synthetic Phosphonates as Potent Tools to Study Phosphonate Metabolism

18:10 Ass.-Prof. Javier Mateos, BSc MSc PhD

New at the Institute - Bench-Stable Salts in Modern Synthesis

18:30 **Poster award & final remarks** (*Prof. Davide Bonifazi, PhD*)

Reception
