

6th Organic Chemistry Symposium

for interested students

Wednesday, 14 May 2025

Carl Auer von Welsbach Lecture Hall

Programme

15:30 **Opening and welcome** (*Prof. Davide Bonifazi, PhD*)

Guest lecture by Ass.-Prof. Dr. Bart Pieber (ISTA)

Taming Light-Mediated Nickel Catalysis through Ligand Design

16:30 **Walther Schmid Memorial Award**

for excellent performance in organic chemistry during Bachelor studies

Presentation of the winner

17:00 Mag. Dr. Roman Lichtenecker

*Unlocking Drug Targets: Protein Isotope Labeling and NMR Spectroscopy
for Molecular Insights*

17:20 Dr. Katharina Pallitsch, Bakk. MSc

*Synthetic Phosphonates as Potent Tools to Study Phosphonate
Metabolism*

17:40 Ass.-Prof. Javier Mateos, BSc MSc PhD

New at the Institute - Bench-Stable Salts in Modern Synthesis

18:00 **Poster session & award** and final remarks (*Prof. Davide Bonifazi, PhD*)

Reception
